

Looking for solutions that make daily tasks of people more efficient, easy and enjoyable?

Curious to humanize technology and innovate your business?

Looking for ways to get the voice of your customer into the boardroom?

Do you want to start with the Customer Experience and work backwards to technology?

What do we do?

We strategize

We help organisations grow from within by facilitating digital change. Together we unearth and pursue the fundamental business goals driving your digital initiatives.

We design

We help shape your digital future. We research, ideate, test and validate before we start building. Our methodology ensures speed, efficiency and adaptability while curbing technical debt, fitting a fast-moving digital world.

How can we help our client?

Insurance Expertise

thewave's ecosystem allows us to move quickly, speed up and empower teams with the right insurance expertise.

Digital transformation

We team up with our clients on both end-to-end transformation programs and the development of digital tools.

Digitizing Operations

We go from analog to digital and focus on optimization, simplification of existing processes.

Design thinking

We put customer needs and expectations at the center of every decision and process.

Capability Building

We help grow your organization and your employees. We help shape a growth culture and share our expertise with practice or training.

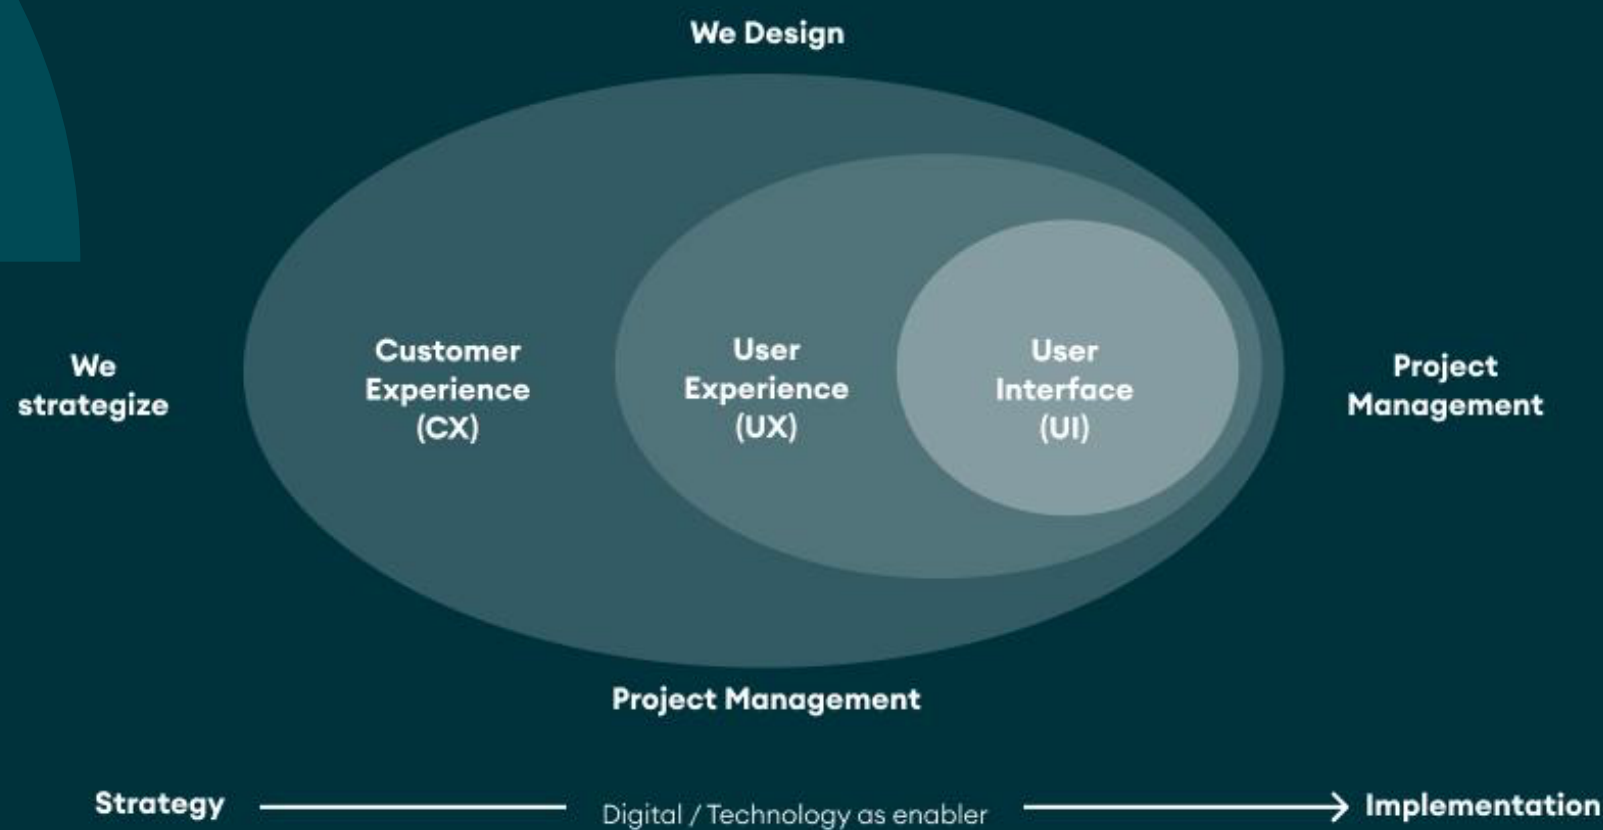

Digital Revenue

We unleash the power of digital outside organizational boundaries and launch new digital businesses.

Your digital fit for **success.**

Our services

We serve our customers from strategy to implementation.

Our values

Expertise

We are true experts in our field. We have the knowledge and the rich experience.

Transparency

We are generous and open-minded team players. We share ideas and insights.

Passion

We are passionate about the team and about insurance. We are one family. We work hard, we play hard.

Delivery

We have a pragmatic can-do attitude, we all want to have an impact on Ensur as a company, we want to contribute to the team.

Creativity

We are creative problem solvers, always looking for ways to innovate our offering, always ready to act swiftly when opportunities arise.
